How does GFP Make Prevention Work?

We keep kids from using drugs one child at a time, through the committed efforts of one parent, one volunteer, and one corporate partner at a time.

One by one, we can make a difference!

Red Ribbon Week (October 23 – 31) is a week in which drug-free awareness is promoted locally and nationally through Red Ribbon Events, like the Red Ribbon Walk/Rally and through products such as red ribbons, stickers, t-shirts, pencils and storybooks.

Our Youth Intern Program consists of a group of Greenville County students in grades 8 – 12 who are focused on living healthy, drug-free lifestyles and making a difference in our community, especially among their peers.

The Prevention Resource Center (PRC) is a collection of drug information videos, books, data and other materials provided at no cost to parents, teachers and other adults working to keep kids off drugs. Through its community network, the PRC provides easy access to community resource information.

CODE (Community Office Drug Education) is a comprehensive drug program for students in the fifth and seventh grades. The curriculum emphasizes the harmful effects, cost and consequences of tobacco, alcohol and other drug use. The program helps students develop refusal skills and positive alternatives to substance abuse.

Proceeds from these events support the mission of Greenville Family Partnership – Keeping our Youth Safe, Healthy & Drug Free! Greenville Family Partnership (GFP) is a non-profit community-based organization. GFP provides the opportunity for parents to have a voice and the tools to keep up to date and informed in a culture that sometimes encourages risky behaviors.
